

EUCLID CHEMICAL

DECORATIVE CONCRETE

Decorative and durable stamped or stained concrete solutions from Euclid Chemical, designed to replicate the natural patterns and textures found in nature.

INCRETE DECORATIVE CONCRETE FROM EUCLID CHEMICAL

Increte Decorative Concrete solutions replicate the textures and patterns found in nature with incredible realism – at a fraction of the cost.

Available in a wide array of patterns replicating granite, slate, stone, brick and even wood - as well as boasting a myriad of standard colours - Increte Systems' materials challenge the eye to tell the difference between an Increte slate, granite, or stone application and the real thing.

What's more, Increte can be installed at a fraction of the cost of conventional materials, all the while offering superior durability and requiring less maintenance.

With a broad range of patterns and colours to choose from, the possibilities are endless whether you are blending with surrounding landscape elements or creating a unique, one-of-a-kind appearance.

By applying special texture and colouring effects to concrete surfaces, patterns come to life with realistic colour and texture variations, while creative and complex designs bring interest to otherwise bland concrete. Sealers are available that not only intensify the colour but increase protection against weather and wear.

COLOR HARDENER

Ready-to-use dry-shake surface hardener for colouring and hardening freshly poured concrete.

Quantity: 25 kg Coverage: 3–5 kg/m²

COLOR RELEASE

Stamp-tool release agents that enhance colour and easily free stamping tools from new concrete.

Quantity: 10 kg Coverage: 0.12–0.20 kg/m²

RELEASE CLEANER

A colourless, odourless cleaner for stamped concrete.

Quantity: 20 L Coverage: 9–10 m²/L (diluted with water)

EVERCLEAR M

A first coat sealer designed to penetrate well into porous surfaces and greatly improve the adhesion between concrete surfaces and sealer coats.

Quantity: 20 L Coverage: 7.3 m²/L

EVERCLEAR M

A clear, non-yellowing formula that offers durability, UV stability and protection of concrete surfaces.

Quantity: 20 L Coverage: 9.8 m²/L

STAMPED CONCRETE

A textured, stamped concrete finish that replicates the look of natural materials at a fraction of the cost.

Comprised of a hardener, colour release and seal coat, Increte Stamped Concrete transforms grey, standard concrete with nearly unlimited colour variations.

Recreates the look of natural slate, stone, granite, brick and wood

Easy to maintain in exterior or interior applications

A wide range of standard and custom colours, patterns, textures available

STANDARD COLOURS

Vista Grey	Light Grey	Bluestone	Oyster Grey	Dark Oyster Grey	Slate Green	Black
Sandstone	Buff	Golden Cream	Coffee	Olive	Peach	Earth
Terracotta	Pumpkin	Tile Red	Marigold	Cisco Red	Red Orange	Nutmeg
Olive Brown	Cinammon	Coco Brown	Birch Brown	Chestnut Brown	Fawn Brown	Chocolate Brown

The applied colours may differ from the examples shown. For a full colour chart and samples, contact your local Flowcrete office.

RENOVATE

(<3 mm)

EUCLID CHEMICAL

A two-component, polymer modified cementitious micro coating that refreshes tired, worn and weathered concrete surfaces.

Renovate is either rolled or pump sprayed and can be integrally coloured using complimentary colour packs.

Retains original texture of stamped concrete

Provides clients with an easy to clean and maintain surface

Delivers a tough, durable and load bearing surface

DURING

AFTER

To find out more information regarding available patterns and textures, contact your local Technical Department.

FORMSHIELD PURE

An oil-based, low VOC, concrete form release.

Quantity: 18.9 L Coverage: 460–920 m²/unit

STONE ESSENCE

A water-based stain that creates rich variegated colours. An alternative to acid stains.

Quantity: 0.9 L Coverage: 4.4–6.6 m²/unit

EVERCLEAR M

A clear, non-yellowing, acrylic formula that will protect and enhance the appearance of concrete.

Quantity: 20 L Coverage: 146–196 m²/unit

EUCLID CHEMICAL

STONE-CRETE

An architectural-wall system that is cast in-situ to deliver the beauty of stone with the strength and versatility of concrete.

Stone-Crete is an ideal choice for foundations and retaining walls, highway sound barriers and subdivision entryways.

Provides clients with colour and design versatility

Speedy installation compared with natural materials

Lasting durability and low maintenance with no delamination

LOCALLY AVAILABLE PATTERNS

12" Split Faced Granite

Ashlar Cut Stone

STANDARD COLOURS

TEXTURE-CRETE

A textured, patterned surface that covers dull, but structurally sound concrete without the need to replace.

Texture-Crete is sprayed onto concrete over a stencil pattern to create unlimited possibilities, that are as durable as they are attractive.

Provides clients with colour and design versatility

Beautifully textured, non-slip surface

Lasting durability and low maintenance

GREASE-A-WAY

Concentrated cleaner and degreaser designed to dissolve dirt, grease and oil stains from concrete and masonry surfaces.

Quantity: 3.8 L / 18.9 L

Coverage: 139 m²/unit / 696 m²/unit

FLEX-CON

An acrylic latex bonding admixture for cementitious overlays that increases bond strength and durability.

Quantity: 20 L Coverage: 56–74 m²/unit

SINGLE COMPONENT SPRAY DECK GROUT

A polymer-modified cementitious coating used to cover cement surfaces.

Quantity: 22.7 kg Coverage: 6.96–13.9 m²/unit

LIQUID DISPERSION

UV stable liquid colourant for any cement-based product.

Quantity: 0.9 L Coverage: 37–3,716 m²/unit*

EVERCLEAR M

A clear protective sealer that deepens concrete colour.

Quantity: 20 L Coverage: 146–196 m²/unit

*Varies by colour.

EUCLID CHEMICAL

SPRAY-DECK

A spray-on overlayment that delivers the look of brand new concrete, with a durable and easy to maintain finish.

Spray-Deck is resistant to abrasion and perfect for high traffic areas where a decorative finish is desired over structurally sound existing concrete.

Resistant to changing weather conditions

Highly textured surface for safety underfoot

Comprises a sealed finish to avoid staining

STONE ESSENCE

A concentrated, water-based colouring system that transforms indoor or outdoor concrete.

Applied correctly, Stone Essence will not chip, peel, crack or fade over time and because it is odourless, it is the perfect alternative to acid stains.

APPLICATION SUITABILITY

- ✓ Patios
- ✓ Pool decks
- ✓ Walkways
- ✓ Garages
- ✓ Driveways
- ✓ Basements

BENEFITS

Provides clients with colour and design versatility

Spray applied for easy installation

Ideally suited to acid-stained concrete surfaces

Resists abrasion to avoid chipping, peeling, cracking or fading

Suitable for both in exterior or interior application

Combine with solvent- or water-based sealers for extra protection

Odourless, providing the perfect alternative to traditional acid stains

Safe for application in occupied buildings

BENEFITS

Adds rich and vibrant metallic colour to concrete surfaces

Not an acid based product

May be sprayed, brushed, sponged, or roll applied

Colours can be easily blended to create custom shades

Great for polished concrete

6 standard colour shades available

Deep-penetrating colour that won't chip or peel

The surface can be coated several times for a deeper, richer colour

VIBRA-STAIN SB

A powdered metallic dye that is specially formulated to be diluted with acetone

Vibra-Stain SB creates a deep-penetrating, semi-transparent colour that can be diluted for different hues, that won't chip or peel when applied to concrete surfaces.

APPLICATION SUITABILITY

- ✓ Polished floors
- ✓ Interior use
- ✓ Restaurants
- ✓ Walkways
- ✓ Retail
- ✓ Hotels
- ✓ Lobbies
- ✓ Conference rooms

STANDARD COLOURS

Mahogany

Espresso

Tuscany

Mocha

Caribe Blue

Charcoal

The applied colours may differ from the examples shown. For a full colour chart and samples, contact your local Flowcrete office.

EZ EXPOSE

A water-based, concrete surface retarder creating exposed-aggregate finishes with consistency and ease.

EZ Expose is available in two grades that result in different etch levels from a fine sandblast up to a full 3.5cm depth that will expose larger decorative stone.

APPLICATIONS

- ✓ Integrally-coloured concrete
- ✓ Decorative exposed aggregate
- ✓ Micro-etch, sandblast effect
- ✓ Embedded exposed crushed shell
- ✓ Flatwork or precast concrete

BENEFITS

Pigmented for easy application control

Creates exposed-aggregate finishes consistently and easily

Odourless and water based

May be sprayed or roll applied

Suitable for interior or exterior applications

EXPOSURE LEVELS AVAILABLE

EZ Expose 5

EZ Expose 25
