

# Flowshield SK (2-3 mm)

A solvent free, self-smoothing epoxy floor system with excellent resistance to Skydrol® and hydraulic fluids.

Typical uses are aircraft hangers, aircraft parking areas and workshops.

# Skydrol®/Jet Fuel Resistant:

Resistant to typical chemicals found in aircraft service environments.

#### Solvent Free:

Solvent free, low in VOCs and environmentally friendly.

### Hygienic & Easy to Clean:

The seamless and gloss finish allows the system to be cleaned easily.

# Hard-Wearing:

Hard-wearing & abrasion resistant suitable for aircraft trafficked areas.

The applied colours may differ from the examples shown. For a full colour chart and samples, contact your local Flowcrete office.

or dry). Textored systems and recommendate irrements for wet conditions and/or surface contaminants (wet or dry) - please

### **Model Specification**

| System       | Flowshield SK  |
|--------------|----------------|
| Finish       | Gloss          |
| Thickness    | 2-3mm          |
| Manufacturer | Flowcrete Asia |

Preparatory work and application in accordance with manufacturer's instructions.

### System Design

### **Products Included In This System**

| Primer         | Flowprime     |
|----------------|---------------|
| Finishing Coat | Flowshield SK |

Optional Sealers are available to produce matt finish or enhance scratch resistance. Contact Flowcrete for further details.

Detailed application instructions are available upon request.

#### Substrate Requirements

Concrete or screed substrate should be a minimum of 25N/mm<sup>2</sup>, free from laitance, dust and other contamination. The substrate should be dry up to 75% RH as per BS8204 and free from rising damp and ground water pressure.

#### Installation Service

The installation should be carried out by a licensed contractor with a documented quality assurance scheme. For details of our licensed contractors, contact our customer service team or enquire via our website at www.flowcreteasia.com

#### Aftercare, Cleaning & Maintenance

Clean regularly using a single or double headed rotary scrubber drier in conjunction with a mildly alkaline detergent.

#### **Environmental Considerations**

The finished system is assessed as non-hazardous to health and the environment. The long service life and seamless surface reduce the need for repairs, maintenance and cleaning. Environmental and health considerations are controlled during manufacture and application of the products by Flowcrete staff and fully trained and experienced contractors.

#### Important Note

Flowcrete products are guaranteed against defective materials and manufacture and are sold subject to our standard 'Warranty, Terms and Conditions of Sale', copies of which can be obtained on request. Warranty does not cover suitability, fit for purpose or any consequential or related damages.

#### **Further Information**

To ensure you are specifying a fit-for-purpose floor, please consult our Technical Advisors or visit our website to register your interest in specifying one of the most durable floors on the market.
